

Please do not weaken Indiana no call privacy law. I do not pay a phone bill for other companies to make money. The main reason I have a phone is for my diabetic daughter and I do not wish to have people calling and wanting money, or selling anything. If I want something I will go out and purchase it. I do not appreciate those types of phone calls, and really believe that if I do get those phone calls, that company should pay me for the use of my phone and for my time having to try and nicely tell them NO. I sincerely hope that my privacy will continue!!!!!!! Thanks Tammy Fields
